**Programme of TLJ 3.0 is constructed based on the following:**

- **Sunday** – Educational Sessions [EDU]
- **Monday** – Statements’ presentations and discussions [CONSENSUS]
- **Tuesday** – Statements’ voting [VOTING]
 Liver transplantation in patients with (PSC) and (IBD)

Histopathological analysis of pre-implantation donor kidney biopsy: Redefining the Role in the Process of Graft Assessment (Part 1)

Role of Pancreas Machine Perfusion to Increase the Donor Pool for beta cell replacement

Immunomodulation and desensitization in kidney transplantation (ENGAGE II)

Clinical Endpoints in liver transplantation according to value based care

The value of monitoring (subclinical) DSA’s for kidney transplant outcomes

Prehabilitation for solid organ transplant candidates

Molecular Biology Testing for Non-Invasive Diagnosis of Allograft Rejection

Downstaging, bridging and immunotherapy in liver transplantation for HCC

Liver transplantation in patients with (PSC) and (IBD)

Machine perfusion in cardiothoracic transplantation

Networking Reception

NOTE: Programme is subject to change
TLJ 3.0 – PROGRAMME – TUESDAY – 15 NOVEMBER

8:00–8:15: [VOTING] Liver transplantation in patients with (PSC) and (IBD)
8:30–8:45: [VOTING] Machine perfusion in cardiothoracic transplantation
8:45–9:00: [VOTING] Prehabilitation for solid organ transplant candidates
9:00–9:15: [VOTING] Clinical Endpoints in liver transplantation according to value based care
9:15–9:30: [VOTING] The value of monitoring (subclinical) DSA’s for kidney transplant outcomes
9:45–10:00: [VOTING] Role of Pancreas Machine Perfusion to Increase the Donor Pool for beta cell replacement

10:00–10:15: EU TRAIN Statistical Course

10:15–10:30: CLOSING SESSION

NOTE: Programme is subject to change
